

Message from Fr William on Sunday 21 June 2020

Dear People of St Mary's and online visitors to our parish

The long awaited camera for our own livestreaming capability has arrived, or at least has arrived at our IT suppliers and technicians – Robinsons Integrated Solutions. Why the long wait? It's been shipped all the way from the manufacturers in Japan.

I've asked Robinsons Integrated Solutions to hold onto it for a week to carry out a full range of tests and ensure that it does everything we want it to do.

Once I'm satisfied that it does what we require it to do I will be in touch with those who have so kindly pledged donations.

Please note everybody: We will soon be switching Youtube channel for our livestream masses, maybe even as soon as next Sunday. I'm very grateful to the Youtube channel 'Knaresborough TV' for hosting our livestream masses. We're now setting up our own St Mary's Youtube channel for our livestream masses. For those who access our livestream masses via the link on our website homepage you won't notice any difference. Keep going to the same link on the website homepage. (This will be linked to our own St Mary's channel instead of Knaresborough TV.) Anybody who has been accessing our livestream masses by going direct to Knaresborough TV, or by some other route, you won't find it there much longer. You also will need to access our livestream masses via the link on the website homepage.

Thank you to those that I know (and those I don't know) who are helping parishioners with no previous internet access to get online or use Smart TV to access our livestream mass. Email me with your success so far and we can pool experience and know-how.

Keep well, keep safe and God bless you all

A handwritten signature in black ink, appearing to read 'William', written in a cursive style.
